

Welcome,

The purpose of the What Now? resource is to provide you with guidance regarding what to do when you have or have reason to suspect a child/children in your school has a reportable disease.

Information is provided on reportable diseases, it gives direction on how to report to the Health Unit, what to report and provides exclusion guidelines. When a child has been diagnosed with chickenpox please report on the [Chickenpox Daily Reporting Form](#).

Please ensure you print **NEW** forms each year as there could be changes made from the previous year. (See Section 6: [Forms](#)).

This resource also provides information on other programs and services we offer at the health unit
